

Breaking into the Media Industry

Hi There

I am 23 and currently studying my BA (Communication Science). I must admit that I am not too sure exactly what it is I want to do but I am leaning towards PR. I have been trying to find entry level/junior positions so I can start gaining the relevant experience. Does anyone have any tips for me, on how to get a job without having the experience? I am even willing to take a salary cut if it means working in an industry I love.
