**House Of Brave** commissioned **Howard Music** to compose, arrange and produce the pieces for three two-minute soundtracks and their concomitant sixty-second cutdowns. The films were directed by **Miles Goodall** of **Sweet Spot Content** and edited by **Nick Goodwin** of **Left Post Production**.

This is the second time that Howard Music has been selected for the 1Life campaign. "The agency brief was to push the pieces in a more experimental way, yet retain the emotive, cinematic feel," says Adam. "The challenge to this year's campaign was to build from last year."

*"The visuals depicted three life-changing stories," says Adam Howard. "The music had to capture and reflect the emotion captured within each scene and find the right emotional balance. Even though each story was heart-rending, we had to make sure the musical message was one of hope rather than despair."*

Adam composed the score for the string section of the Johannesburg Festival Orchestra. Real strings bring a unique, cinematic feel to the commercials.
