

School of IT

Issued by [School of IT](#)

18 Apr 2019

[School of IT](#) recently opened their doors in Somerset West (155 Main Road, Somerset West).

The training provider offers both online and face-to-face tuition in the Western Cape. They offer a wide variety of courses, including programming courses, web design, SQL, PC engineering, AutoCad, social media and MS Office. Programming courses include [C#, Java, Python, Android and C++](#). School of IT focuses on the practical side of programming and IT.

What makes School of IT different:

1. **We believe** in the **practical approach** to **programming** and any IT course.
2. **One-on-one experts**. You get assigned a **one-on-one expert** lecturer that has **vast knowledge**. All our lecturers are **certified** and have cutting-edge knowledge.
3. We are **flexible** with time! We fit into your schedule! **You commence anytime!**
4. You have the option to get internationally accredited and recognised in under six months...
