

Newspapers ABC Q4 2017: Losses across the board

By [Danette Breitenbach](#)

14 Feb 2018

In the Audit Bureau of Circulation (ABC) 4th quarter 2017 release, Press saw a 2.1% decline over Q3, and 5.1% decline over the prior year. Losses were across the board, including Free Newspapers. In total there are 9,054,649 newspapers of which Weeklies make up 7,784,907.

Dailies

With decline the overall trend for the quarter and over the prior year (8.2% and 17% respectively), Dailies have been impacted by the closure of a title, which changed the composition in favour of Single Copy Sales. Declines occurred in all categories of circulation

Despite this, there was some good news in the category, with *Die Burger Daily*, *Business Day* and *The Mercury* all increasing over Q3. However, all three declined over the prior year. In all cases, the yearly decline outweighed the quarter's gain.

The Western Cape's *Die Burger Daily* increased from 46,379 to 47,400 over Q3 or 2.2%, keeping in mind the corresponding previous figure of 50,258, which is a decline by 5.7% over the prior year.
