

JobMe Nigeria launched

JobMe Nigeria was created to make job search easy and fun. It provides job searchers with the links to the latest job ads daily from as many sources as possible (more than 20 job websites, Twitter and Facebook) and presents them under one roof.

JobMe Nigeria gives free access to nearly 200 jobs posted online daily. Another feature on the site allows job searchers to save their favourite jobs and review them later.

Unemployment is a big issue in Nigeria and the company believes this is its way to help. If small and medium scale businesses succeed they will employ more people, reducing the unemployment crisis.
