

# Brothers Against Violence launch a campaign by Brothers for Life

Brothers for Life is a national men's campaign that aims to create a movement of men that will ignite and spread throughout South Africa. The campaign draws upon the spirit of Brotherhood that exists among South African men and encourages men to positively influence each other as men, partners, and parents and as leaders.

In addition, Brothers for Life seeks to address the risks associated with having multiple and concurrent partnerships, men's limited involvement in fatherhood, lack of knowledge of HIV status by many, low levels of testing and disclosure, and insufficient health-seeking behaviours in general.

The campaign is a collaborative effort led by South African National AIDS Council (SANAC), the Department of Health, USAID/PEPFAR, Johns Hopkins Health and Education in South Africa (JHHESA), Sonke Gender Justice, the United Nations System in South Africa and over 100 other civil society partners working in the field of HIV prevention and health.
