

Northlink College 10th anniversary celebrations

Northlink College, one of the biggest public FET Colleges in the country, continued with its 10th anniversary celebrations by inviting local businesses, which have supported them over the past decade, to a business breakfast during October 2012.

The 24 businesses that were represented were thanked for their support over the past 10 years as well as encouraged to place qualified Northlink students for their internships at their organisation.
