

Uber Eats now available in East London

Uber Eats has announced that the app is now available in East London, making it the 11th city in South Africa to have access to the app.

To commemorate the launch, residents of East London can enjoy a buy one get one free campaign from select restaurants from 22-28 June. For those who are not close by and would love to surprise their friends or family, Uber Eats has introduced a new feature that allows users to easily send food to loved ones and share the status of that delivery with a simple link.

Eaters can enjoy ordering their favourite meals from their long time favourites Milky Lane, Rocomama's and McDonald's as well as local favourites Sanook, Angela's Coffee Shop and Earth Forrest.
