

Free online learning with Udemy through DStv

As South Africans continue to adjust to new ways of living and working, MultiChoice South Africa is expanding its value by giving DStv customers access to 600 free courses offered by Udemy until the end of July.

Udemy is a leading online learning platform, aimed at professional adults and students. MultiChoice is pleased to introduce a brand-new initiative designed to help DStv customers make the most of their time indoors. The free online courses, available through the DStv app, provide customers with the opportunity to transform their business, learn a new language, or discover a new passion.

In addition, all active DStv Premium customers will receive a \$5* voucher via e-mail to use on any of Udemy's paid for courses valid for a month - this translates into an almost 40% discount on the cost of most courses. Customers should simply download the DStv App, sign in with their DStv customer number and click on the Udemy offer.

This offer is available with immediate effect.

* Voucher equivalent to the Rand amount at the prevailing Rand/Dollar exchange rate on Udemy, at the time of redemption.
