## Storytelling and film craft on a global level

The One Screen Short Film Festival celebrates and awards global filmmakers from both commercial advertising and film industries. One Screen is part of The One Club for Creativity.

The festival focuses on all forms and aspects of short films – narrative fiction, comedy, commercials, branded content, music videos, spec work, passion projects, animation, sound, movie poster design, title sequences – and has a mission to celebrate and award filmmakers from around the world working in both the film and ad industries, with no limitation and total artistic freedom.

In addition to awarding work in specific genre categories, One Screen expands this year to also recognise creative excellence by region with best-of awards for Asia-Pacific, Europe, Latin America, North America and Middle East-North Africa.

Last year's festival saw a significant increase in global entries, with work submitted from 45 countries.
